

# Forever **new**

In today's fast paced world trends change daily – thankfully, there are a few interior decorating styles that stay, never age and stay on-trend year in year out.

## CONTEMPORARY MINIMALIST

*Sleek, sophisticated and disciplined – get the contemporary minimalist look by choosing a neutral colour palette of black and whites. Keep lines clean and simple with minimal fuss – the less accessories the better. Make statements with iconic furniture by designers like Eames and large-scale artworks.*
